It's Simple

to start saving now

Apply through your certified contractor

Select your terms, sign your financing documents

Complete your efficiency or hurricane protection upgrades, we pay your contractor

Make payments with your property taxes

¹Subject to underwriting guidelines and approvals; deferral of first payment depends on date of funding; interest shall accrue during entire deferred payment period. ²According to Residential Energy Services Network, the market value of a home increases by \$20 for every \$1 decrease in annual energy costs (www.resnet.us). ³YgreneWorks PACE payments repaid with your property taxes and are legally transferable upon sale; however, some mortgage lenders may require full repayment of the special tax upon sale or refinance.

YgreneWorks for you

Q: How can YgreneWorks™ work for me?

A: According to the EPA, improving your home's energy efficiency can help to lower high energy bills, improve comfort and reduce greenhouse gas emissions. And by saving energy, you may be able to increase the value of your home.² Making energy efficiency, renewable energy and hurricane protection improvements to your home or business is easy and affordable with no money down YgreneWorks PACE financing.

Q: What is PACE financing?

A: Named one of the top 20 "world-changing" ideas by Scientific American magazine, PACE (property assessed clean energy) is a simple and effective way to finance energy efficiency, renewable energy and hurricane protection upgrades to buildings. Payments are made with a special assessment added to the property's tax bill and repaid with terms of up to 20 years depending on service area and type of improvement. State and local governments approve PACE financing programs to help create jobs, promote economic development and protect the environment.

While PACE programs are enabled by state legislation and must be approved by your local government, YgreneWorks is not a government program.

Q: Is making payments through my property tax bill a good idea?

A: YgreneWorks PACE financing payments are approved under Florida State Statute 163.08 and secured by a continuing lien on the property. If you sell your property, payments may transfer to the new owner, just like your property taxes.³

Q: How do I qualify?

A: It's easy. If your property is in one of our active service areas, your Ygrene certified contractor can get you preapproved online in just a few minutes at no cost. Eligibility is based on the equity in your home (among other factors), and not on proof of employment, income or financial statements. While we won't use your credit score to determine your eligibility for financing, we will pull your credit report to confirm certain underwriting criteria.

Choose from hundreds of eligible improvements

Replace your air conditioning system. Upgrade to energy efficient windows, doors, roofing and insulation. Install solar. Replace your water heater. And more. Visit ygreneworks.com/improvements for a list of PACE-eligible upgrades.
